EXPERIENCE

SeaGuard – Low-Cost SOS Beacon & Relay Network (Group of 5)

Agile Team Project (5COSC021C), IIT / University of Westminster · 2026 – Present

- Designing a boat-mounted SOS device (GPS + LoRa) that relays alerts boat-to-boat to a shore dashboard.
- Lead the "Field facts" research: fleet data, fisher equipment, Sinhala/Tamil usability.
- Found about 91% of Sri Lanka's marine fishing boats are outside national vessel tracking.
- Prepared interview questions for stakeholder sessions with rescue services.

SafeCity Smart City Surveillance – Consultancy Case Study (Group of 4)

Group Coursework Project · June 2026

- Advised a technology company on a smart-surveillance investment: architecture, feasibility and risk.
- Co-wrote a technical article on the data pipeline, edge/cloud trade-offs and privacy safeguards.
- Co-produced a video podcast pitch for non-technical stakeholders.
- Wrote a 250-word executive summary with an investment recommendation.
- Delivered all three on a fixed deadline.

Rubber Band — Lead Vocalist
IIT Student Band · Ongoing

- Perform at events organised by leading schools and universities across Sri Lanka.
- Performed live at the IIT Youth Pulse Halloween event.

Restaurant Recipe & Inventory Management System — ESOFT Coursework Project
ESOFT Metro Campus · Python, SQL

- Built a database-backed app for recipe and ingredient inventory with CRUD operations.
- Designed a normalized schema and SQL queries for search and filtering.

Geolocation Finder — Latitude/Longitude Lookup System
ESOFT Coursework Project · Python

- Returns latitude/longitude coordinates for a given location.
- Calculates distances between points using the Haversine formula.

Recipe Management System — Coursework Project
IIT Degree Programme · 2026 · Python

- Python app to add, store, search and manage recipes.

Airline Seat Availability Checker — Coursework Project
IIT Foundation Programme · 2025 · Python

- Python program to check and manage airline seat availability.

Soil Contamination Detection App — AI Solution Concept
Figma Prototype

- Designed the user flow and interface for an AI tool that detects soil contamination.
